Attn: Scott Jennings, P.E.

Subject: Engineering Services

Mr. Jennings:

We would like to thank you for your willingness and ability to help us out on several engineering service needs for this project with very short timelines. Your company's ability to provide quick turnaround times without sacrificing the high level of quality that is needed for this project has been a huge benefit for our team. Our project was definitely able to get started much easier with your help on the following Hawaii Licensed Engineered submittals:

1. Preconstruction Conditions Survey and Report (with videos, photos and summary report)
2. Biotower Bypass and Outage Plan

We appreciate your sense of urgency and ability to perform at such a professional level and look forward to continuing to work with you on this project and future projects which require engineering services.

Regards,

Richard Crago, P.E., DBIA
