

Schindler Elevator Corporation

May 3, 2016

Subject: Scott Jennings – Letter of Reference

To Whom It May Concern:

Our relationship started about ten years ago when you provided engineering services for some of our federal projects. Our federal projects required seismic calculations stamped by a professional engineer. The calculations you provided in accordance with ASME and the project specifications were done in an expedient and professional manner. The work was always accurate and you were willing to go the extra mile when we needed your assistance. We would strongly recommend your services to any organization.

We look forward to working with you in the future on seismic and/or other special engineering needs.

Sincerely,

SCHINDLER ELEVATOR CORPORATION

Landon deVille
