RE: Letter of appreciation

Scott,

Thank you for spending three days in our office earlier this month implementing HCSS' HeavyBid software. We recently decided to make the move to this software in an effort to improve our estimating controls.

I was especially pleased with the help and industry advice you provided on setting up our cost control numbering. You were willing and able to assist prior to, and after, your visit to our office.

We're continuing to develop our cost controls and look forward to your continued assistance in strategizing on ways to optimize our program.

Please do not hesitate to pass on my contact information clients that may be interested in procuring your construction consulting services.

Sincerely,

Greg Morrill  
President
